A Message for Independent Providers

Now, more than ever, Ohioans with developmental disabilities and their families need support from providers of service. Direct support professionals (DSPs), including Independent Providers, are the essential ones providing that support across the state. Because the need for DSPs is so extraordinary during this time, many provider agencies throughout Ohio have reached out to the Ohio Department of Developmental Disabilities (DODD) for ideas on how to meet this demand.

For Independent Providers who are currently certified but not engaged in the delivery of services, or who may only be providing services on a part-time basis, there are many opportunities available to meet this high demand for service. If you are able and willing, please:

- Notify Warren County Board of DD or your local county board of developmental disabilities of your willingness to assist more people
- Let the County Board know if you are willing to be hired as an employee of an agency provider (even as a temporary or fill in/on call staff)

Right now, Independent Providers can make a difference in the lives of more people, in more communities, and in more ways than ever before.
