Wear Masks To Keep Others Safe

As a DSP, you are responsible for the health and safety of the people you support. People with disabilities have a higher risk of experiencing health issues related to COVID-19. Wear a mask while you are working to protect people with disabilities from getting sick. You can help STOP the spread!

Centers for Disease Control and Prevention (CDC) Tips:

- Wash your hands before putting on your mask
- Put it over your nose and mouth and secure it under your chin
- Try to fit it snugly against the sides of your face
- Make sure you can breathe easily
- CDC does not recommend masks if they have a vent
