We have heard concerns from our provider community about having enough personal protective equipment (PPE) and cleaning products that keep staff and people we support safe. We would like to get a better idea of what you currently have and when you anticipate needing particular items. Additionally, we know some providers, while doing an inventory, have found that they have a surplus of specific items/cleaning supplies and are willing to share with other providers. This survey will help gather current need, expected need and also any surplus that you are willing to share. Please take a few minutes to complete this brief survey.
